More praise for The Credit People!

"I just wanted to thank you and your company for what you all have done for my credit scores. This service is certainly worth every cent that I spent on it. I have seen all three of my scores/reports increase by substantial margins. Wow!

Lastly, I just wanted to say that I was able to secure the loan we discussed when I first considered your service. The only reason I was able to get that much needed approval was due to the hard work by TheCreditPeople.com. Thanks again,"

"I cannot tell you how happy I am with your service. Do you ever solicit reference letters or need positive feedback? I half expected this to be a scam and to be honest my expectations were very low. Between your service and my commitment to becoming credit worthy by exercising my credit in a healthy manner I am now sitting with a 758 credit score. This is up from 575 three years ago. If there is someone I can tell about your great job, please let me know.

Thanks!"
